DIRECTORS' REPORT

Your Directors are pleased to present the **Sixth** Annual Report of your Company for the period ended March 31, 2015.

1. Financial Highlights:

(₹ In Lacs)

Sr No.	Particulars	Year ended 31/03/2015	Year ended 31/03/2014
1.	Total Income	3606.18	3188.22
2.	Total Expenditure (Excl. Depreciation & Interest)	3424.86	2992.39
3.	Interest	83.86	86.28
4.	Depreciation	78.72	93.31
5.	Profit before Tax	18.74	16.24
6.	Provision for Taxation	9.09	6.93
7.	Profit after tax	9.65	9.31

2. Management Analysis and Discussions**Discussion on financial performance with respect to operational performance**

During the year, your Company earned total revenues of ₹3606.18 lacs compared with ₹ 3188.22 lacs during the previous year, reflecting a growth of 13.11 % over the previous year. The profit before tax stood at ₹ 18.74 lacs as compared to ₹ 16.24 lacs in the previous year. The Company has made a provision of tax totaling to ₹9.09 lacs and the profit after tax stood at ₹ 9.65 lacs for the current year. The Operating Profit (earnings before depreciation and interest and tax) grew from ₹ 181.32 lacs to ₹ 195.82 lacs, a growth of 8 % over the previous year.

The Company has built a comprehensive brand portfolio across various verticals including software, server and security, and this has helped the company to increase its earnings. The company has a mix of products, services and technology integration in order to build opportunities for incremental revenue growth.

Review of Operations including Industry Structure and Developments

The year under review was one of the most challenging ones in recent years. The year witnessed moderate growth in Global demand of IT products reflecting broad pricing pressures, government spending constraints from continued fiscal challenges, datacenter consolidation enabled by virtualization, accelerating cloud adoption and a shift toward lower-cost hardware products. In India although the sentiment continues to be positive, demand on the ground has not picked across product categories. From an IT products standpoint, the market remains sluggish. Projects, essentially driven out of investment in infrastructure by government and corporates, have slowed down and only old projects are being executed. Your Company has demonstrated its high adversity quotient and its capacity for implementing differentiated strategic solutions.

Information Technology lies at the core of your Company's business. The sector prompted and shaped industrial growth and transformed the lifestyle of the citizens. Now a new trend is emerging where the enterprise focus is gradually shifting from capital expenditure to operating expenditure and billing style is changing from transaction to annuity, pay-per-use, and pay-per-click. The trend is not disruptive today and is at a nascent stage. But it is expected to evolve in the next decade. The strong fundamentals of business and the current model will continue to be in vogue but at a lower pace of growth as compared to the new tech trend. Looking ahead there are a few significant trends shaping the distribution business in general and IT distribution in particular. Your Company is engaged in monitoring and suitably adapting its strategy to participate and be relevant in the changed scenario.

Adoption of Cloud based infrastructure and solutions is gaining traction in India and there is a gradual acceptance on the part of organizations in the SMB sector to embrace this practice in order to shift their IT Infrastructure from a Capex to an Opex model. Cloud technology allows users access to applications over the Internet displacing the age-old practice of running programs by downloading software onto a physical server or computer. We aspire to position ourselves as a single company that acts as a bridge between the Cloud Technology providers and the End Customers by offering a complete bouquet of Cloud solutions and services. Your Company is looking to sell Cloud Solution as a product. As the demand pattern in India matures, your Company will evaluate appropriate Cloud business strategies and invest in this space accordingly.

Given that India is one of the fastest growing markets in the world, all major brands in the enterprise and retail verticals, even those with an existing presence in the country, are keenly looking at ways to increase their market share. Our diversity in terms of a large

bouquet of products lines and vendors and geographical reach has enabled your Company to take maximum advantage of the available growth opportunities. Your Company has embarked on the set up of a robust services platform that benefits both the brand and the end customer. This will involve offering complete parts planning, parts warehousing, forward and reverse logistics, imports and re-exports, and assets recovery and e-waste management to provide a single-window fret-free parts management service to brands.

With growing dependence on IT, thanks to the Internet and mobility, uptime of devices be it PCs, Tablets or Smartphones, and enterprise assets like networking devices, servers and storage which support them, has become critical for running business applications and maintaining operational efficiencies. User organizations have therefore time and again necessarily refurbished their IT hardware from a plethora of vendors ending up with products from multiple brands. To complicate matters further, rapid strides in technology have successfully shortened product life cycles and put tremendous strain on parts availability for maintenance of assets beyond service life. Managing the uptime of heterogeneous IT hardware is therefore a huge challenge for user companies. Your company is looking to tap this into a big opportunity and offer single window SLA bound AMC service for heterogeneous hardware, which spans PCs, peripherals, and enterprise assets. Your Company's investment and engagement over the years has enabled it to develop a strong foothold catering to Enterprise & Infrastructure projects.

While strengthening and consolidating its core business, it is evaluating ways and means of transforming through better efficiencies and increased process driven automation. Your company is evolving into a Solution oriented partner for its vendors and customers. Pre-Sales and Technical Sales talents are deployed to help partners provide their customers with customized solutions to achieve their desired business outcomes.

Strengths

The inherent strength of your Company derives from its absolute belief in sound, sustainable business practices and an ability to continuously address the diverse needs of its customers. The strengths have enabled your Company to successfully articulate its various differentiated value propositions in the markets in which it operates.

We believe our strong brand, robust quality process and our access to skilled talent base at lower costs of providing services places to us in a unique position to take advantage of the opportunities available.

The Company provides the entire spectrum of Information Technology products. The strength of your Company is the brand and products diversification along with wide product range, dedicated group of talented professional who drive its business and relationships with its business partners and manage its support functions.

Quality

Your Company continues to strive towards operational and delivery excellences with a renewed focus on the path of business excellence. Customer satisfaction and excellence in quality are key elements for succeeding in the competitive global market. A strong emphasis is based on quality in every aspect of the company's activities. In line with this philosophy we have designed our quality management program and have defined several key parameters for measurement of quality levels to ensure improvement in the quality of the deliverables. Several initiatives have been taken to implement result oriented quality management models.

In order to be able to respond quickly to the customers, your Company continues with various internal initiatives to compete effectively, improve organizational flexibility and efficiency, streamline internal processes and institutionalize a culture of continuous improvement. The system comprises well defined organization structure, pre-identified authority levels and documented policy guidelines and manuals for delegation of authority.

Review of key business processes like business planning, reporting and communication has been done to make them more effective in meeting business objectives. Moving forward, your company shall continue to further strengthen its processes by adopting best-in-class standards.

Customer Satisfaction and excellence in quality are key elements for succeeding in this competitive market. In order to be able to respond quickly to the customers, your Company continues with various internal initiatives to implement result oriented quality management models, compete effectively, improve organizational flexibility and efficiency, streamline internal processes across all its entities globally and institutionalize a culture of continuous improvement.

Outlook

In the near term, the outlook is a little gloomy. The expected pickup in demand in India which had been anticipated eagerly since last fiscal year, is yet to take shape. Looking ahead there are a few significant trends shaping the distribution business in general and IT distribution in particular. Your Company is engaged in monitoring and suitably adapting its strategy to participate and be relevant in the changed scenario.

Your Company is in the process of preparing itself for the changes in business paradigms which are expected to reshape the Indian Market. Your Company's ability to capture emerging business opportunities across social, mobile, analytics, cloud (SMAC), particularly solutions with higher customer value, is critical to achieving revenue growth and maintaining profitability on a sustainable basis in the coming years. We believe that with our diverse portfolio of solutions and services, domain expertise and increasing value-add to customers, we are best suited to be a strategic partner to our customers. Your Company is also exploring distribution in other areas such as Telecom products and Consumer Durables, thereby leveraging in its infrastructure and of course optimizing its core competency. The Company is undertaking several key initiatives including enhancement of existing skill sets and domain knowledge for providing implementation and application services to customers on behalf of its vendors and partners.

Opportunities and threats

Opportunities

We believe there is a growing demand for additional services and solutions from companies that already have an established global presence and existing infrastructure, which is why we are strategically focused on increasing our capabilities in these areas. Our diversification strategy continues to provide us with new growth opportunities. Looking towards the future, your Company will remain focused on agility, innovation and operational excellence.

Threats

Competition is the main threat to most tech outfits, considering the relentless product cycles, the typically rapid move toward commoditization in the sector and also changes in technology and markets, changes in government policy or regulations / legislation etc also brings challenges and treats to the smooth functioning of the Company.

Risks and Concerns

The productive life of IT resources and competencies is shrinking, thereby increasing the level of investment needed to meet the market requirements. The convergence of IT and Telecommunication industries, while provide huge growth opportunities to your Company, also exposes it to increased competition.

The Company's objectives and expectations may be forward looking within the meaning of applicable laws and regulations. The competition from large international and Indian IT companies is increasing in the domestic market space. Actual results may differ materially from those expressed. Important factors that could influence the Company's operations include change in government regulations, tax laws, increased competition, economic and political developments.

Internal control systems and their adequacy

The Company's internal control system is commensurate with its size, scale and complexities of its operations. The Company has a well-defined delegation of power with authority limits for approving revenue as well as expenditure and processing payments. Your Company has an effective internal control and risk mitigation system, which are constantly assessed and strengthened with new/revised standards operating procedures.

The Company has the robust Management Information System, which is an integral part of the control mechanism. Dynacons Technologies Limited has an audit committee, the details of which have been provided in the corporate governance report. The Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of the internal control systems and suggest improvements to strengthen the same.

3. Dividend

With a view to plough back the profits of the Company and keeping in mind the expansion of business activities, the Board of Directors consider it prudent and recommend not declaring any dividend for the year ended March 31, 2015.

4. Directors and Key Managerial Personnel

Pursuant to Section 149 of the Companies Act, 2013, the Board recommended the appointment of Mrs. Archana Phadke for a period of 5 Years as an Independent Director of the Company, not liable to retire by rotation from the date of its 6th Annual General Meeting subject to approval of the Members of the Company.

Mrs. Archana Phadke (holding Din 07138774), was appointed as an Additional Director designated as an Independent Director w.e.f. March 27, 2015. The Director has given the declaration to the Board that she met the criteria of independence as provided under Section 149(6) of the said Act and also confirmed that she will abide by the provisions as mentioned in Schedule IV of the Companies Act, 2013.

Mr. Parag Dalal, Director, retires by rotation and being eligible, has offered himself for re-appointment. The Board recommends the same for your approval.

The Board recommends the resolutions for your approval for the above appointments.

During the year, Ms. Pooja M. Dere was appointed as Key managerial personnel w.e.f. 1st October, 2014. Mrs. Dere resigned from the office of Key managerial personnel dated 24th August, 2015.

5. Auditors

Pursuant to the provisions of Section 139 of the Act and the rules framed thereunder, M/s. Palan & Co., Chartered Accountants, were appointed as Statutory Auditors of the Company from the conclusion of the 5th Annual General Meeting (AGM) of the Company held on 30th September, 2014 till the conclusion of the 8th AGM to be held in the year 2017, subject to ratification of their appointment at every AGM.

Auditors Report

The Auditors' Report does not contain any qualification. Notes to Accounts and Auditors remarks in their report are self-explanatory and do not call for any further comments.

6. Open Offer

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies act 2013 ("the Act") with respect to the preparation of these financial statements to give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act, read with Rule 7 of Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement , whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act and the Rules made thereunder including the accounting standards and matters which are required to be included in the audit report.

We conducted our audit in accordance with the standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control relevant to the Company's preparation of the financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstance, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls systems over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

SIGNIFICANT ACCOUNTING POLICIES

Company Overview

Dynacons Technologies Limited is an Information Technology Company engaged in providing a comprehensive range of products to customers.

SIGNIFICANT ACCOUNTING POLICIES :

1. Basis of preparation of financial statements

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act"), as applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

2. Use of Estimates

The preparation of financial statements requires the management of the company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Example of such estimates include provision for doubtful debts, provision for income tax, accounting for contract costs expected to be incurred to complete software development and the useful lives of fixed assets and intangible assets. Contingencies are recorded when it is probable that a liability will be incurred and the amount can be reasonably estimated. Actual results could differ from such estimates.

3. Revenue Recognition

Revenue relating to equipment supplied is recognized on delivery to the customers and acknowledgement thereof, in accordance with the terms of the individual contracts. Revenue from the sale of software products is recognised when the sale has been completed and the title has been passed to the client.

4. Expenditure Recognition

Expenses are accounted on the accrual basis and provisions for all known losses and liabilities are made. Provisions are made for future unforeseeable factors, which may affect the ultimate profit.

5. Other Income

Interest income is accounted on accrual basis. Dividend income is accounted when the right to receive it is established.

6. Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances, (with original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

7. Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

8. Research & Development Expenditure

Revenue expenditure incurred on research is charged to revenue in the year it is incurred. Assets used for research are included in Fixed Assets. Development Expenditure are capitalized only if future economic benefits are expected to flow.

9. Fixed Assets & Intangible Assets

Fixed Assets are stated at their cost less accumulated depreciation. Fixed assets are capitalised at the cost of acquisition including all expenses directly attributable to bringing the asset to its working condition for intended use. Capital Work-in-Progress comprises the costs of fixed assets that are not ready for the intended use at the Balance Sheet date and includes advances paid to acquire fixed assets. No depreciation has been calculated on the same. Fixed Assets which are not in active use and scrapped, due to technological obsolescence or otherwise, are written off. Intangible Assets are recorded at the consideration paid for their acquisition. Cost of an internally generated asset comprises all expenditure that can be directly attributed, or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use.

10. Depreciation

In respect of fixed assets (other than freehold land and capital work-in-progress) acquired during the year, depreciation/amortisation is charged on a straight line basis so as to write off the cost of the assets over the useful lives and for the assets acquired prior to 1 April, 2014, the carrying amount as on 1 April, 2014 is depreciated over the remaining useful life based on an evaluation:

Type of asset	Estimated useful life (Years)
Plant and equipment	
- Computers - Servers / Storages	3
- Computers - Desktops / Laptops	6
Furniture and fixtures	10
Vehicles	8
Office equipment	5
Intangible assets	6

Assets costing less than ₹ 5,000 individually have been fully depreciated in the year of purchase.

The estimated useful life of the intangible assets and the amortisation period are reviewed at the end of each financial year and the amortisation period is revised to reflect the changed pattern, if any.

11. Inventories

Inventories are valued at the lower of the cost and the net realizable value. A periodic review is made of slow-moving stock and appropriate provisions are made for anticipated losses, if any. Cost is determined using the first-in first-out method.

12. Investments

Trade investments are the investments made to enhance the company's business interests. Investments being long term in nature are carried at cost, and provision is made to recognise any decline, other than temporary, in the value of such investment. Earnings from investments are accounted for on an accrual basis.

13. Foreign Currency transactions

Sales and Expenditure in foreign currency are accounted at the exchange rate prevalent as of the date of the respective transactions. The exchange differences, if any, arising on foreign currency transactions are recognized as income or expense in the year in which they arise. Current Assets and Current Liabilities denominated in foreign currency are translated at the exchange rate prevalent as at the date of the Balance Sheet. The resulting difference is also recorded in the Profit and Loss Account.

14. Retirement Benefits to employees

i. Post-employment benefit plans

Defined contribution plan

Payment to defined contribution retirement benefit schemes shall be charged as an expense as they fall due.

Defined Benefit plan

For defined benefit schemes, the cost of providing benefits is determined using Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognized in full in the profit & loss account for the period in which they occur. Past service cost is recognized to the extent the benefits are already vested, and

otherwise is amortized on a Straight-Line method over the average period until the benefits become vested. The retirement benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligations as adjusted for unrecognized past service cost.

ii. Short-term employee benefits

The undiscounted amount of short term employee benefits expected to be paid in exchange of services rendered by employees is recognized during the period when the employee renders the service. These benefits include performance incentives, paid annual leave, medical allowance, etc.

15. Income Tax

The tax expense for the year comprises of Current Tax and Deferred Tax. Current Taxes are measured at the amounts expected to be paid using the applicable tax rates and tax laws. Deferred tax assets and liabilities are recognized for the future tax consequences of timing differences, subject to the consideration of prudence. Deferred tax assets and liabilities are measured using the tax rates enacted or substantively enacted by the balance sheet date.

16. Borrowing Costs

Borrowing Costs that are directly attributable to the acquisition of qualifying assets are capitalised for the period until the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs are recognised as an expense in the period in which they are incurred.

17. Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the note 24.1. Contingent assets are not recognised in the financial statements.

18. Service tax input credit

Service tax input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is no uncertainty in availing / utilising the credits.

19. Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

20. Impairment

At each Balance Sheet date, the company reviews the carrying amounts of its fixed assets to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and the value in use. In assessing the value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to the present value using a pre-discount rate that reflects the current market assessments of time value of money and the risks specific to the asset. Reversal of impairment loss is recognized immediately as income in the profit and loss account.

21. Leases

Operating Lease

Leases where the lessor effectively retains substantially all the risks and rewards of ownership of the leased asset are classified as operating leases. Operating lease charges are recognized as an expense in the profit and loss account on a straight-line basis over the lease term.

Finance Lease

Leases under which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. The lower of fair value of asset and present value of minimum lease rentals is capitalized as fixed assets with corresponding amount shown as lease liability. The principle component in the lease rentals is adjusted against the lease liability and interest component is charged to profit and loss account.

22. Earnings per share

The Company reports basic and diluted earnings per equity share in accordance with Accounting Standard 20 'Earnings per share'. Basic earnings per equity share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit for the year by the weighted average number of equity shares during the year as adjusted to the effects of all dilutive potential equity shares, except where results are anti dilutive.
